3. Background

3.1 The construction industry has been experiencing worker shortage since year 2007, against this background, the CIC has initiated five collaborative training schemes between year 2011 and 2014 to collaboratively train up semi-skilled workers with the industry. Under these schemes, students are recruited on a first-hire-then-train basis and primarily trained on-site. In support of the schemes, the CIC provides subsidy to students and encourage the new comers to join the industry.

- 3.2 In order to integrate and optimize the original five collaborative training schemes, the CIC implements the "Intermediate Tradesman Collaborative Training Scheme" (ITCTS) in 2017. The Scheme aims to focus on trades with severe manpower shortage and simplifies the application procedure to make it easier for employers to apply.

4. Nature of the Scheme

- 4.1 The Scheme follows training approach of collaborative training schemes. It consists of initial training and on-site training which are conducted collaboratively with employers.
- 4.2 The Scheme follows "first-hire-then-train" basis. The training is composed into 2 modules. The first module is initial training conducted by the CIC/HKIC, and the second module is the on-site training conducted by the employer. The overall training period is from 1 to 6 months depending on work trades. For details, please refer to Annex 1.
- 4.3 Students will first receive initial training in Hong Kong Institute of Construction which including general knowledge and fundamental skill training. The general knowledge introduces the background of local construction industry, professional ethics and major work trades. The fundamental skill training introduces basic operation skills of relevant work trades and provide practical training. General knowledge is provided to all work trades while fundamental skill training is provided to selected trades only.
- 4.4 During the on-site training period, students can learn and practice relevant skill set on site provided by the employers.
- 4.5 The CIC/HKIC approves the applications as well as monitor and review the Scheme regularly.
- 4.6 For flow chart of ITCTS, please refer to Annex 2.

The Student subsidy will be prorated base on students' attendance if the student does not attend in full attendance. The number of leave or absence shall not exceed 5% of the total initial training days.

Example:

During the initial training period, a student absented 5 days in that month. With the basis of 30 training days per month, the student shall receive the student subsidy for that month: $\$10,200 \times (30-5)/30 = \$8,500$

5.6.2 Student Subsidy (Subsidise Employer)

During the on-site training period, the CIC/HKIC shall provide student subsidy of \$6,500/month/student to employers if the student works for not less than 20 days per month, with the basis of 25 working days per month. Student subsidy will be prorated if the student works for less than 20 days per month. But if the student has less than 20 days due to the annual leave, sick leave and work injury leave, and no deduction in monthly salary, the student subsidy will still be fully paid.

Example:

During the on-site training period, a student works for 18 days in that month. With basis of 25 working days per month, the employer shall receive the student subsidy for that month: $\$6,500 \times 18/25 = \$4,680$

Example:

During the on-site training period, a site trainer works for 18 days in that month and train up one student. Since the site trainer works for less than 20 days and with basis of 25 working days per month, the employer shall receive the site trainer subsidy for that month: $\$7,500 \times 18/25 = \$5,400$

- 5.7.2 If student withdraws the scheme during the on-site training period, the CIC/HKIC will still fully pay the site trainer subsidy for the students in the month of withdrawal. For example, the site trainer had 4 students at the start of the on-site training, but 2 students withdrew for personal reason in the second month. In this case, the CIC/HKIC would grant the full amount of site trainer subsidy for the first month to the employer. Starting from the second month, there were only 2 students and the site trainer subsidy would be calculated based on 2 students. If the students withdraw because of an unreasonable dismissal from the employer or the site trainer fails to comply with the training syllabus, the employer will no longer be approved by the CIC/HKIC and will not be issued the site trainer subsidy.
- 5.7.3 Once the overall training period ends, the CIC/HKIC will stop issuing the site trainer subsidy.
