Global Series

Future Construction Excellence (FCE) is one of the flagship executive development programmes in the global series

建造專業進修院校 | SCHOOL OF PROFESSIONAL DEVELOPMENT IN CONSTRUCTION

Global Series

The construction industry is undergoing unprecedented transformation driven by digital innovation, sustainability imperatives, evolving business models, and emerging global challenges. To thrive in this rapidly changing landscape, construction professionals must move beyond traditional management approaches and develop the vision, agility, and leadership capabilities required to shape the future of the industry.

The Global Series, hosted by the School of Professional Development in Construction (SPDC), is a premier executive development platform designed to empower construction professionals with global perspectives, strategic insights, and transformative leadership capabilities. Through engagement with world-renowned institutions, industry leaders, and international best practices, participants will gain exposure to emerging technologies, innovative approaches, and forward-thinking strategies. The programme equips leaders to drive change, foster innovation, and deliver sustainable value across the built environment sector in an increasingly complex and interconnected world.

The series aims to empower participants to become catalysts for transformation, capable of navigating complex challenges and seizing opportunities presented by technological advancement, sustainable development, and global market evolution. Future Construction Excellence (FCE) is one of the flagship executive development programme in the global series, designed to equip construction professionals with the leadership capabilities needed to thrive in an increasingly interconnected and rapidly evolving industry.

Future Construction Excellence (FCE) Programme Core Value

C — Cultivating
Forward - Thinking Strategic Visionaries

I — Incorporating
Global Experience and Local Insights

C — Capturing
Innovative Technologies

F — Fostering
Future-Ready Next Generation Decision-makers

C — Creating
Sustainable and Adaptable Capabilities

E — Empowering
Long-Lasting Connections

Sep 2026

Global Insights Module

Imperial College London
London, UK

Oct 2026

Regional Know-how Module

Top Tiers University
Beijing, PRC

Dec 2026

Local Expertise Module

Hong Kong Institute of Construction (HKIC)

Global Insights Module (September)

Venue: Imperial College

Day 1 Leadership in the Changing Landscape

Day 2 Embracing Digital Transformation, Innovation & Automation

Day 3 Modern Methods of Construction (MMC) & Collaborative Project Delivery

Day 4 Sustainability on Asset & Facility Management

Day 5 Safety Leadership and Commercial Management

Regional Know-how Module (October)

Venue: Beijing (Top Tiers University + Company & Site Visit)

Day 6 Analysis of National Strategy and Macroeconomic Trends

Day 7 Innovation in the Application of Nationally Leading Technologies (Digital Construction & AI Applications)

Day 8 Innovation in the Application of Nationally Leading Technologies (Intelligent Construction Equipment & Prefabrication)

Day 9 Innovation in the Application of Nationally Leading Technologies (Green Technologies & Smart Manufacturing)

Day 10 Innovation in the Application of Nationally Leading Technologies (Future of AI & Digital Transformation)

Local Expertise Module (December)

Venue: Hong Kong (Hong Kong Institute of Construction & Site Visit)

Day 11 Construction Industry's Local Landscape

Day 12 Real Case Experience Sharing in Local Context & Capstone Project & Graduation Ceremony

Future Construction Excellence (FCE) Programme

Empower Construction Leaders to Steer Transformative Change in the Future

As one of the flagship components of the CIC Global Series, the Future Construction Excellence (FCE) Programme 2026 is your gateway to global insights, regional expertise, and local innovation. Designed to empower leaders to excel in the future construction industry, this programme prepares you to lead in an evolving global landscape, anticipate challenges, and pioneer sustainable and tech-driven solutions. FCE will escalate your impact in shaping the construction industry of tomorrow.

A Cross-Border Learning Journey in the FCE 2026

- Global Insights Module at Imperial College London, UK (5 days)
- Regional Know-how Module in Beijing (5 days)
- Local Expertise Module at Hong Kong Institute of Construction (2 days)
- Exclusive Networking Events with industry pioneers
- Capstone Project to apply your learning in real-life scenarios
