Certificate of Safe Operation of Mobile Elevating Work Platform (Articulating Boom, Telescopic Boom & Self-propelled Type)

移動式升降工作平台操作安全訓練證書（曲臂型、伸展型及自行式）

Currently, the industry has experienced a significant number of accidents involving the use of Mobile Elevating Work Platforms (MEWPs), coupled with a lack of standardized training. In light of this, the management of HKIC has proposed the development of a specialized safety operation course aimed at enhancing safety awareness. This course is designed for relevant personnel and will provide standardized training to help prevent safety violations and foster a positive safety culture. Upon successful completion of the course, participants will receive a "Certificate of Safe Operation of Mobile Elevating Work Platforms." Additionally, students will be required to undergo operational training from suppliers for each specific type of MEWP.

由於業界在使用移動式升降工作平台（一般稱為 升降台）時有意外發生，且目前仍缺乏統一及整合的訓練內容。學院現已推出安全訓練課程，教導如何正確使用升降台，提高安全意識，減少不當操作行為，從而培育工地安全文化。

成功完成本課程的學員，可獲得由 建造業議會 發出「移動式升降工作平台（曲臂型、伸展型及自行式）操作安全訓練證書」，惟學員仍需接受由供應商提供相關升降台類型的操作示範。
