Safety Experience Tour at 【Safety Experience Training Centre】

[安全體驗訓練中心] 安全體驗團

Safety Experience Training Centre (SETC) is located at the HKIC Kwai Chung Campus. It covers an area of approximately 3,000 square feet and has been designed eight different training zones, which incorporate simulation-based training, to model real accident scenarios on construction sites. The establishment of SETC is a step forward from the tradition mode of training. It aims to enhance safety awareness and promote a safe working environment through the provision of more practical and efficient training and accident simulations.

安全體驗訓練中心位於香港建造學院葵涌院校，中心佔地約三千平方尺並由八個不同的事故模擬訓練區域組成，以模擬建築工地的真實事故情境。安全體驗訓練中心的成立是由傳統訓練模式向前邁進的一步，透過提供更切實有效的訓練和事故模擬情境，以提升參加者的安全知識和推廣工地環境安全。
